PUMPS

Wastewater Pumping Solutions

PACO Pumps - From Collection to Effluent

PACO Pumps, a division of Flow Products, Inc. offers a complete selection of pumps from collection systems to plant effluent applications for a wastewater treatment facility. **PACO** has over 90 years of experience in the design, manufacture, and application of premium efficient centrifugal and vertical turbine pumps in the wastewater industry. **PACO** offers state-of-the-art pump selection software with responsive worldwide distribution. The added advantage of US based manufacturing provides unmatched customer-focused after sales support, spare parts, repair, and rental services.

Application or Service	Pump Type	Model
Wet Pit Lift Station	Submersible	QDSC
	Column Type	NC/NCD
Dry Pit Lift Station	Dry Pit	NCU, NCVU, NCH, NCP, NCF, NCDP
Plant Influent	Submersible	QDSC
	Dry Pit	NCU, NCVU, NCH, NCP, NCF, NCDP
Dewatering	Sump	SL, SM
Belt Press Dewatering	Dry Pit	NCU, NCVU, NCH, NCP, NCF
Sludge Handling	Dry Pit	NCU, NCVU, NCH, NCP, NCF, NCDP
	Submersible	QDSC
Digested Sludge Handling	Dry Pit	NCU, NCVU, NCH, NCP, NCF, NCDP
	Submersible	QDSC
Return Activated Sludge	Dry Pit	NCU, NCVU, NCH, NCP, NCF, NCDP
	Submersible	QDSC
Plant Recirculation	End Suction	LC, LF, LCV
	Vertical In-Line	VL
	Split Case	KP, KPH, KPV
	Vertical Multistage	VM
	Vertical Turbine	VT
Plant Effluent	End Suction	LC, LF, LCV
	Vertical In-Line	VL
	Split Case	KP, KPH, KPV
	Vertical Multistage	VM
	Vertical Turbine	VT
Plant Washdown/Irrigation Booster	Booster System	PF9000

PACO Pumps - Commitment to After Sales Service

Replacement Parts Kits

Genuine **PACO** Parts Kits take the guessing out of replacement part selection and shipment. **PACO** parts kits are pre-engineered and pre-packaged to simplify selection, ordering and stocking.

Whether for emergencies or inventory, **PACO** parts kits are available off the shelf.

PACO Pump Repair Service

PACO service centers provide 24 hour emergency service for in-field or in-shop repairs on all makes and models of pumps. Pick up service, parts and full machining capability are available for all emergencies. **PACO** has over 90 years of experience in service and repairs.

PACO Rental Equipment

PACO Pumps brings the experience and knowledge of over 75 years of service to construction, industrial and municipal markets. A full service pump and related equipment facility offering after hours and emergency service. **PACO** rental equipment and service provides pumps, generators, welders, light towers, compressors and accessories as well as assistance in design of dewatering, bypass and water supply systems.

PACO Pumps - Plant Effluent

Type: KP - Horizontal Split Case

Sizes To: 12"
Flows To: 8000 gpm
Heads To: 400 feet
HPs To: 350 HP

Type: KPVS - Vertically Mounted Split Case

Sizes To: 10"
Flows To: 8000 gpm
Heads To: 400 feet
HPs To: 350 HP

Type: LC - Close Coupled End Suction

Sizes To: 8"
Flows To: 3750 gpm
Heads To: 350 feet
HPs To: 125 HP

Type: LF - Frame Mounted End Suction

Sizes To: 10"
Flows To: 5000 gpm
Heads To: 400 feet
HPs To: 200 HP

Type: LCV - Vertically Mounted End Suction

Sizes To: 8"
Flows To: 3750 gpm
Heads To: 350 feet
HPs To: 125 HP

Type: VT - Vertical Turbine

Sizes To: 80"
Flows To: 115000 gpm
Heads To: 3000 feet
HPs To: 5000 HP

Type: VL - Vertical In-Line

Sizes To: 10"
Flows To: 4000 gpm
Heads To: 250 feet
HPs To: 125 HP

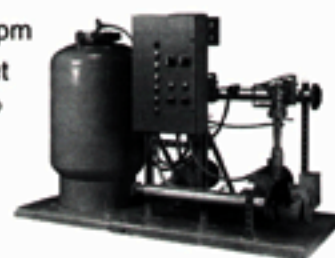

Type: VM - Vertical Multi-Stage

Sizes To: 4"
Flows To: 420 gpm
Heads To: 800 feet
HPs To: 30 HP

Type: PF9000 - PACOFLO Water Booster System

Sizes To: 12"
Flows To: 3000 gpm
Heads To: 600 feet
HPs To: 200 HP

PACO Pumps - Solids Handling

Type: QDSC - Centerline Submersible Non-Clog

Sizes To: 8"
Flows To: 4200 gpm
Heads To: 250 feet
Solids To: 3"
HPs To: 150 HP

Type: NC/NCD - Vertical Column Non-Clog

Sizes To: 8"
Flows To: 4400 gpm
Heads To: 220 feet
Solids To: 3"
HPs To: 200 HP

Type: NCDP - Dry Pit Submersible Non-Clog

Size To: 20"
Flows To: 14000 gpm
Heads To: 300 feet
Solids To: 5"
HPs To: 210 HP

Type: SL - Column Type Sump

Sizes To: 4"
Flows To: 800 gpm
Heads To: 125 feet
HPs To: 15 HP

Type: SM - Submersible Sump

Sizes To: 2"
Flows To: 250 gpm
Heads To: 110 feet
HPs To: 7.5 HP

Type: NCH - Horizontal Non-Clog

Sizes To: 10"
Flows To: 8000 gpm
Heads To: 280 feet
Solids To: 4.5"
HPs To: 500 HP

Type: NCP - Vertical Shaft Driven Non-Clog

Sizes To: 10"
Flows To: 8000 gpm
Heads To: 280 feet
Solids To: 4.5"
HPs To: 500 HP

Type: NCF - Vertical Flexibly Coupled Non-Clog

Sizes To: 10"
Flows To: 8000 gpm
Heads To: 280 feet
Solids To: 4.5"
HPs To: 500 HP

Type: NCU - Horizontal Close Coupled Non-Clog

Sizes To: 6"
Flows To: 3200 gpm
Heads To: 160 feet
Solids To: 3"
HPs To: 60 HP

Type: NCVU - Vertical Close Coupled Non-Clog

Sizes To: 6"
Flows To: 3200 gpm
Heads To: 160 feet
Solids To: 3"
HPs To: 60 HP
